PROFILE

Passionate Software Developer , Proficient in React, Tailwind CSS, JavaScript, with hands-on experience in building responsive and user-friendly applications. Eager to learn and apply technical skills to real-world projects, with a passion for problem-solving and continuous improvement.

WORK EXPERIENCE

APOLLO IT CORPORATE *| Chennai*   (July – Aug 2024)

Web developer Intern

- Developed a dynamic intranet website for Apollo Hospitals, implementing an advanced admin panel for unit management, editable URLs, and seamless data handling, enhancing operational efficiency.
- Technology used : Python (Flask), HTML, CSS, JavaScript

Magnion Technology Factory *| Chennai*   (Feb – July 2024)

Graphic designer Intern

- Create visually appealing marketing materials using Canva and Adobe Photoshop. Worked closely with customers to ensuring the expected final products, which improved the overall user experience.

Plus 91 Ultimate Cinemas *| Chennai*   (May 2023)

Digital Marketer Intern

- Assisted in various digital marketing initiatives, gaining proficiency with tools and analytics to measure campaign effectiveness. Conducted keyword analysis and SEO optimization.

PROJECTS

Website Development – Real Time Projects

- Designed and developed responsive business websites using React and Tailwind CSS. Implemented key features such as about section, product showcase with React components, WhatsApp inquiry, and contact/footer sections. Used GitHub & Netlify for preview and deployed on Hostinger.
  - About Section to showcase business identity
  - Dynamic Product Display using reusable React components
  - WhatsApp Inquiry Integration for direct customer communication
  - Contact & Footer Sections for seamless user engagement
  - natarajanandco.com | ahmedpainttraders.in

Active Prosthetic Ankle for Bike Riding | Project Contributor

- Assisted in developing a functional ankle prosthetic to help lower-limb amputees ride bikes. Worked on EMG signal detection, sensor calibration, and integration with Arduino.
